

WARRANTY

CATALYTIC CONVERTER

D.P.E.warrants catalytic converters manufactured by us to be free of defects in material and workmanship for 12 months or 20,000 kilometres (which ever comes first) from the date of installation (Proof of purchase and qualified installation must be provided) and further warrants that the product which fails with in the warranty period: and found upon delivery to the seller and examination by our representative, to be defective in either material or workmanship and such defect has not been caused in the opinion of our representative, by external damage, misuse, improper fitment or operation, lack of maintenance, or arising from other than normal on-road use: will be replaced or rectified at the sole discretion of the company

Liability is specifically limited to the value of the merchandise purchased or supplied
And does not include any other claims incidental to replacing the defective item.

This warranty is conditional that the converter is properly installed on the vehicle that
The catalogue recommends and proof is supplied that the engine was correctly tuned to the manufacturers original specifications at the time and then maintained in that condition.

The manufacturer will not assume liability for converter failures caused by improperly maintained vehicle, accidents, backfiring damage, the use of leaded fuel or if installed on vehicle with modified exhaust systems or modified or incorrectly functioning omission systems.

The vehicle engine **MUST** be correctly tuned to the manufactures original specifications and the engine control equipment **MUST** also be operating to the vehicle manufactures specifications **BEFORE** the catalytic converter is installed and proof of these conditions existing must be provided before a warranty claim can be considered.

Cars with LS1 edit or uni chip will not be covered at all

When fitting cats all name badges are to face the ground
